

Life

Seize the moment, seize the day,
Don't let anything get in your way.
Grab every opportunity, see all that you can see,
Because we never know for how long we'll be free.
Do what you can have no regrets,
Always be happy and try not to fret.
Don't get depressed don't be down,
Continue to smile and don't show a frown.
We only get one life, we only get one shot,
So make sure you give it all that you've got.
