

Mysteries

Did we evolve from apes or was there really an Eden?

Are our lives determined or do we have freedom?

Are there parallel universes taking place?

Is there really an alien race?

Do ghost really exist?

Do frogs change when they are kissed?

Are crop circles merely a con?

When we die do our spirits move on?

Is the Loch Ness monster only a tale?

Was the first person on earth really a male?

Is there a guardian angel watching over me?

Is there a Bermuda triangle out at sea?

If you wish on a star will that wish come true?

During the day, what does a tooth fairy do?

At the end of a rainbow is there a pot of gold?

Or are all these just lies we've been told?

There is no correct answer to any of these,

They will all just remain mysteries!
